The Story:

I had checked with the agency about the services on offer, which were very clear. But she refused most of them after a short time - unfortunately after I had paid. She refused a refund. I tried calling the agency and left a voicemail, but of course they had my number, knew I'd arrived and were avoiding my call. I went through with simple sex, with limited other contact (she didn't like being touched!) as I had some pent-up sexual frustration! I left after about 30 mins, very unhappy. The whole set up suggested to me that the agency was in on the scam and I would avoid both the woman and the agency
