### The Premises:

Small flat in modern development. Area is OK and safe day and night. Access via ansaphone and lift.

### The Lady:

Tall. Aged over 30 I suspect. Strong features. Not beautiful, but striking.

### The Story:

I can't say that I did enjoy the experience. After protracted emailing and texting, eventually made it into the flat. Immediately I was tempted to back out - even when I had had my prescribed shower - but I thought I may as well carry on. She even laid out a mouthwash for me to take although she said I needn't bother once she had ascertained that I wasn't filthy dirty..

I had in my minds eye a long legged fluffy dark skinned beauty. She was long legged but amazonian in build, and no fluff to be seen.

I asked her if she would mind me massaging her and she agreed. I massaged her body sensually and gradually began to stroke her between her legs This continued for several minutes and it is possible that she came- she certainly got wet. She then sucked my covered cock for several minutes and we then got into a 69 position. Unfortunately she smelt strongly of onions - probably BO in the nether regions - so I was unable to sustain my erection.

We then cuddled for a bit and I was beginning to get a hard on again when her alarm clock went off and she informed me that my time was up. I complained about my lack of an orgasm and she just shrugged her shoulders.

Basically I didn't fancy her and I should have followed my instincts. As usual it is such a hassle to get to a situation where a shag is on offer that I went ahead.

I didn't think she was very good at her job - not really very interested in my sexual satisfaction, so I cannot recommend her on that basis. In her favour, she was friendly and intelligent, but she is in the wrong job - more like a therapist than a sex worker imho.
