The Premises:

Incall at apartment where there was another girl present, ok but uncomfortable

The Lady:

well her photos were amazing, which left me wondering why she was so reasonably priced, I soon found out!

She is jaded, needs to take better care of herself, and be more giving re her work

The Story:

Well in my experience there are two types of girls, those that when they receive the gift, work at repaying by their positive actions , and secondly those that try to get through with as little effort as possible.

Oxana unfortunately falls into the second! After having been told a long list of what was and was not available she proceeded to include the absolute minimum.

A shame , but she is jaded, is there for the money , and really should put effort into matters, if she does not want action then do not play, but to made to feel that it is all a bit of a waste of time and effort, makes you leave very disappointed, when that should be the last thing on your mind.

She could be super, but currently is not!
