The Story:

Excellent session which (post shower) began with a good facefuck as she kneeled eager in front of me (I held her head by the sides and pounded well and long) -- then rimming on the bed (she licked my ass while staring straight in the eye). Oral on her and she came energetically. Then a good session in many positions, but declined anal due to size. So I had her kneel again in front of me, and wanked on her face. She took it like a champ, and in fact I think she swallowed the last bit of it. There was no pit stop in the bathroom after I had slid my cock in her mouth while I was still climaxing.
