The Lady:

Petite, pretty blonde - the same girl as on the website. She wore a pink babydoll with matching panties, pink hold-up stockings and high heels. Nice legs. Spoke good English with a sexy accent.

The Story:

I was fifteen minutes late for the appointment. At first she pretended to be annoyed but she couldn't keep a straight face and burst out laughing. I was shown into the bedroom and we sat on the bed and had a little talk (I can't reveal what we spoke about, but it was interesting!). She was sitting close and I could feel the warmth of her leg against mine. It seemed natural when she leaned in and began kissing me. I reacted by slipping my hand under her underwear and started to play with her nipple with one hand, and her pussy with the other. She was moaning and rubbing my crotch and before I knew it my zip was down and she was kneeling in front of me. She put one hand under my scrotum and stroked me up and down then parted her lips and went down on me. Using a combination of mouth and hands her technique was first class (including ball-licking) and all the time she maintained eye contact and made little noises as if she was enjoying her work. I managed to hold on for about fifteen minutes and then came in her mouth.

I took a trip to the bathroom and when I came back she was lying on the bed naked - nice pert natural boobs, probably B-cup, a flat stomach and cute pussy which was almost hairless.

I joined her on the bed and as soon as we resumed kissing and I could feel myself getting hard again. She asked if I wanted more oral, but I said no and she quickly got the message.

We started with cowgirl and it was a treat to watch as her breasts moved up and down. I noticed that she had a look of concentration on her face, as if she was genuinely enjoying it. She touched her boobs and played then started playing with her clit which was a real turn-on for me. Then she started moving faster and her breathing became more rapid - if I hadn't already come once, at this point it might have been the end for me!

I'm convinced she had a genuine orgasm at this point and she gave me a passionate kiss as a reward. All the time she didn't stop moving up and down on top of me.

She asked if I would like to change position and we switched to missionary with her legs raised up slightly so that I could squeeze her arse cheeks. Once again she had that 'dreamy' look on her face, and when her hand started to move to her clit again I could tell where this was headed so I decided to go along for the ride, speeding up and not holding back. I'm not sure which one of us finished first. She certainly made more noise than me.
