### The Premises:

Gfe is well established, clean and presentable. One of my preferred locations. I saw they had 2 new girls starting todayalongside Emily who I would have been more than happy to see again if the new girls weren't my type

### The Lady:

On arrival I was told that only one girl was available- Megan. The anticipation of disappointment didnt last though as Megan soon walked out to introduce herself, smiling broadly and looking enchanting. And when she spoke with a delightful Welsh accent the decision to stay was easy. I would estimate she is early/mid 20s long dark hair, very pretty, nice smile and very sexy body with curves in all the right places.

### The Story:

Megan started with a very professional massage, exhilerating and relaxing with a good conversation and a friendly demeanour. Clearly very intelligent with a gooh too.

She then turned me over and took off her bra to reveal a sensational bust which she proceeded to rub all over me. Lots of lovely kissing and OWO, followed by reverse oral and I was really worked up by this stage.

On went the condom and I took her in missionary before we swapped to her on top. For me, cumming is not a guaranteed event and whilst its always great fun trying, I often fail to complete the job. So what happened with Megan on top blew me away. I dont know what she did or how she did it, but the technique had me cumming in no time at all-I couldn't have stopped myself if I had wanted to! The best sexual experience I have ever had! I just hope she can remember what it was she did for the next time I see her. TY xx
