The Lady:

attractive, friendly, early thirties thai lady about 5ft 2in with shoulder length dark hair.

The Story:

On arrival I was greeted by a very friendly thai lady and was informed that there were two girls working but one was already with a punter and only Poppy was available she's new today.

The receptionist showed me to the room which was very clean and tidy with a good sized bed and a jacuzzi bath. Within half a minute I was being introduced to Poppy who I would describe as attractive without being a stunner. I'm not good with ages but I'd guess early thirties, about 5ft 2in, quite slim with shoulder length dark hair.

I undressed and lay on the bed but Poppy was still fully dressed and seemed unsure what to do next. I asked her if she was going to undress to which she replied: do you want me to undress? erm....yes. She undressed in a slightly uncomfortable way and I sussed at this point that this wasn't just her first day at this parlour, it was her first day in the job. When I asked her if I was right she confirmed that I was her first ever punter! Anyway we got started with the massage which was very light at first but increased in intensity as Poppy relaxed and got into her stride. There wasn't much dialogue at this point and I decided to move things along a bit by asking her to come and lay down with me. This seemed to do the trick and she came and snuggled up to me and started kissing me quite passionately and rubbing her whole body against mine. Her kissing technique is excellent and I was hard as a rock after in no time. I gradually kissed my way down her body and as I sucked on one of her nipples I looked up and saw that she had her eyes closed and her mouth open. She was enjoying it now and seemed to have completely relaxed. I headed south to her gorgeous pussy which was nice and tight, unshaved but neatly trimmed, just how I like it.

After licking her lips and clit for a while I asked if it was ok to put a finger in. No problem, she was wet and slippery and I stayed there licking and fingering till she gave a shudder and pushed my

head away. No over the top moaning and groaning, just a lovely smile which said it all.

We were hitting it off now and chatting and laughing like a pair of lovers. There followed lots more snogging some prolonged sucking of my bare cock and another bout of RO with Poppy sitting on my face this time.

More OWO on me then on with the noddy for the grande finale. I opted for mish which seemed to meet with Poppy's approval and we kissed deeply as I pounded my way to the finish.

I had a great climax and she carried on milking my cock with her pussy muscles until I started to soften then off with the condom and Poppy cleaned me up with a baby wipe. We lay on the bed for a while chatting and stroking each other and there was no rush to get me out. I mentioned that I needed to get rid of the oil on my back before I went home and Poppy assisted me to shower then dried me off with a towel.

Despite Poppy's initial shyness I had a very enjoyable punt. She's a really friendly girl who seems very willing to please and I'm sure she'll soon gain in confidence given a little time.

On my way out I saw the other girl who was by now sitting in the waiting room. She looked very shaggable too!

Cost ??90 for just over an hour
