The Story:

I should have left before the punt started but as usual my brain was starved off any blood. She started off by telling me what she was NOT going to do, no FK, no doggy, etc etc but no i carried on with punt. She left the room and made me wait 10 mins before she reappeared. She then started with OWO which was fantastic then onto mish where she would not let me penetrate her fully then onto cowgirl where she had her feet on top of my thighs to prevent full penetration again. WTF. She had hairy legs no playing with her feet which is my favorite. I gave up and just got dressed and left. She should change her name to prima donna. Worst Hungarian girl i have ever been with. Found her on the purple site and she seems to have really good reviews. Spent 20 minutes out of the hour.
