The Premises:

As previously described, right in the centre of MK surrounded by ample public car parking.

The Lady:

Blonde, 20 something, reportedly Hungarian but almost certainly from central-eastern Europe, slim, very attractive - her unblurred photos on the website are a good likeness, above average height, fully shaved between legs.

The Story:

Elise has been on my must see list for some time on account of her excellent unblurred photos and long list of enthusiastic FRs from appreciative punters. Her sporadic working pattern however made it difficult for me to synchronise availabilities. Keeping an eye on rosters it finally emerged that she was working when I was able to make the lengthy trek to MK.

She came into the room, briefly introduced herself and immediately embraced me, dfk'ing passionately and enthusiastically as if we were two lovers reunited after a lengthy separation rather than two strangers with a 30+ year age difference who'd just met.

This set the tone for the remainder of the session much was spent in a passionate embrace with our mouths locked. There was only a couple of diversionary sampling of owo/ro but these last only a short while before our lips homed in together as if driven by powerful instincts - it all felt very natural.

The climax was precipitated initially by owo then completed by hand at my request. Its ferocity virtually knocked me out and I vaguely recall her asking whether I was ok with a note of concern in her voice. On ascertaining that I was, she proceeded to kiss me tenderly with tongues while I lay prostrate in a state of post coital inertia.

There was a final kiss at the front door when she was showing me out as I left.

GFEs really don't come any better than this.
