The Story:

It pains me to review her, because I think she is so exceptional that I would love to keep her for myself. But on the other hand she is just a marvellous, talented and dedicated cock-sucker that you ought to try her (and the fact that the next punter was on her door as I was on my way out probably means the secret's out). But just push her down on her knees, present your cock to her face, and watch how eagerly she pops it in her mouth (if she's not licking your balls). I have seen her 5-6 times, and I am constantly amused by how eager she is for me to climax in her mouth. Sex is also great, of course, although bringing her to orgasm is next to impossible (including by oral -- believe me, I tried). No anal/swallow/facial. But a great lay nevertheless. Seen her actually with Hot Collection, which I think is an excellent agency. Do me a favour, though: if you see her, post a review. I would love to know how she is with others !
