The Premises:

Stella lives in a very central location, literally a few minutes from Union Street. The flat was modern with some parking available outside and those willing to pay would have no problem. Inside, I have to admit the bed was a tad soft and overused but the room smelled great and hopefully the scented candles are still a feature. In general this was a small flat but cosy and clean.

The Lady:

For me there was some amusement on arrival as Stella opened the door but kept herself firmly out of sight initially. However once I was inside I was put at ease as it was definitely the girl from the photos and she takes her job seriously looking like a million bucks for her clients. I have to admit she was so well done up I'd like to see her sometime without the make up, jewellery, and nails purely out of interest. I reckon I'd still fancy the pants off her. Of course, she was dressed to kill so no bathrobe which impressed me.

The Story:

This happened a while back but am thinking of having a punt in the next few days and this one is top of my list. There are some impressive looking ladies on all the sites as we all know but after some thought

Stella is perhaps one of the best in my limited experience. She's cute, and that time went to town enthusiastically. I'm not one for taking any risks at all but as far as I could tell GFE was on the cards and a big regret was not putting my mouth where I wanted it to be. Anyway, Stella has a great body and is enthusiastic in bed so that when she said 'don't stop' despite being knackered I wanted to carry on for a good while longer. I'm not going to bore anyone with her chat but in my opinion this was a lassie with plenty to say and she had my attention while we took a break : intelligent, funny, nice and slightly eccentric (what more do you want).
