The Story:

This was supposed to be a 2 hour session. I got no more than one hour that mainly consisted of waiting for her, or listening to her make calls on her mobile to her druggy mates.

I feel really sorry for Rach (advertises as young.teen). Please don't book her. She's just doing this to feed her drug habit. Please don't make my mistake and contribute to her habit, and ultimately her death.

I had my reservations about this booking. I shouldn't have handed over the cash so quickly, and instead, got the hell out of there. But dick ruled over brain again.

The first thing I noticed was that she had a sore below her lower lip. She was also a bit unsteady on her feet; although she did say that she'd just got up, and needed a wash (which she never did!). I didn't detect any alcohol. However, she'd been up for a few hours as we'd swapped a few texts! Alarm bells were ringing, but stupidly I handed over the cash - the total amount of which she questioned!

She offered me a drink and I asked for a glass of water. I then noticed many marks on both her arms - she is obviously a self-harmer. She then pretty much disappeared for 15 to 20 mins! She went the loo, and it sounded like she was constantly trying to light a fag. She then went into the kitchen, trying to light her fag again. She was also on the phone - but I couldn't make out what she was saying - but money was definitely mentioned.

I eventually had to shout to her - are you ok?? After a piss, and no wash, she returned to the bedroom.

The remainder of her clothes came off, and I noticed that her skin was scabby in places, and she had loads of burst blood vessels. She had terrible varicose veins on her right leg.

I didn't know if anyone else was in the flat, or nearby, and I didn't want to upset her. I didn't feel particularly safe.

First session was her on top. During this time, she nodded off from time to time, and she asked me if I could drop her off at her mum's after!

After I came, she asked me if I wanted to come again! Well I was planning to come more than once in two hours! I should have taken this opportunity to leave, but I didn't want to give her (or anyone else in the flat, or nearby) the impression that I was having a shit time, and that I wanted my money back, and I indeed wanted to leave. I thought I'd better stay for just one hour.

The highlight of the booking was being offered a cup of tea. I was going to need a break to somehow get blood back in my penis. Whilst having my tea, she called her druggy mates, and discussed various numbers, and money. She arranged to be picked up also.

Once she received my money, all she was interested in was figuring out what drugs she could get for it, and how quickly she could get them. That's why she wanted a lift to her 'Mum's', and eventually arranged to be picked up to be taken to drug central.

She also asked me to provide her with positive feedback several times. She's desperate for the money.

An awful experience. Please AVOID this very sad lady.
