The Premises:

it was my place i did the tidying before she came here

The Lady:

she was a very tall 19 year old dark haired girl with a pleasant personality

The Story:

we had a brief chat i asked if i can undress her after i had given her the payment, found out what she does and doesn't do, which one thing i was very disappointed with in the fact she did not allow kissing on the lips,

however she did make up for it with her personality and was very pleased to do what i asked and allowed me to be in control

she did oral on me i did oral on her she doesn't like 69 position maybe due to her height i don't know, she was good at oral i was good at doing oral on her so she said

i asked to go on top but she mis understood and we went straight to doggy position,

i am not sure what to put as to yes or no so i am going to put yes but it is really a maybe in my mind,

i really have had better but i have far worse too so take it as a maybe from me
