The Premises:

Much-reported on, and, once the lift-access has been experienced, never forgotten. Good decor inside; dedicated parking outside.

The Lady:

Terri is in her early thirties, I guess. She's tall, with very long legs, and is a curvy woman (just how I like them) with more than a good handful of tit.

The Story:

This month's promotion at Blue Ice is a range of "uniforms" at no extra cost. I had arranged with the most helpful and welcoming Yvonne for Terri to be dressed as secretary, with stockings and suspenders underneath her skirt. I also asked that Terri should pretend that she did not know that a condition of employment was that she must shag the boss. Later, I informed her that getting the secretary's job full-time would depend on how well she fucked. Terri played this to perfection. But, first, having noted that she'd forgotten to bring her pad and pencil, she would have to agree to have her bottom smacked.

The whole session was fantastic (in the truest sense), and I came all too soon (Terri said that she would take this as a compliment).

By the way, she has a great knack of squeezing one's cock with her cunt, especially at orgasm. Of course, this left longer for my habitual closing massage, during which I informed her that she would get the secretary's job full-time.

Last I heard, Yvonne was busy running up another secretary's uniform, ahead of a two-girl which I am planning for Terri and Tia next time. The scenario is going to be - and I put them on notice - that there's only one job available, and the woman who fucks best will get it.
