Basement flat in terrace.

The room is quite large, with a massage mattress on the floor, and a massage table. There are vaguely Eastern wall hangings and decorations. Flutey music plays to give atmosphere.

The Lady:

Crystal is a beautiful Spanish girl in her early twenties, I'd guess, with a lovely figure and smooth light olive skin. She has a lively twinkle in her eye, but takes the massage seriously, and works very hard to give you pleasure.

The Story:

Why have I never tried a tantric massage before?

After a shower, you are asked to sit cross-legged on the mat, while the delightful young lady sits opposite and talks about shastras and yonis for a while. She also makes it clear that the ending will be by hand, no oral or penetration.

Then you're told to close your eyes. She comes behind you and begins to gently massage your arms and back. You soon realise by the soft pressure on your back that the bra has come off.

Then you're told to lie down, and the massage proper begins, mostly soft and sometimes a bit tickly. Very very nice.

After a while it's onto the massage table. you lie with your face pointing into a hole in the table. You can't see what is happening to you, and nice inventive surprises keep happening. At one point I was delighted that her fingers were tickling my balls. Then I realised that it was her toes doing the work. Warm oil adds to the pleasure.

Then it's turnover time, and things begin to get very sensual indeed.

Afterwards, I asked Crystal where she'd learnt her techniques. She said that the Asian maid had taught her a lot, and she'd watched a video, and worked with some of the other girls. 'Some are more sensuous, some are more erotic,' she said. 'I try to do a bit of both.'

Well, she has a talent for it, and made this elderly gent feel very happy for the duration of the session, and for quite a while afterwards. I shall return.
