5'10", shoulder length blonde hair, great figure with enhanced breasts but the surgeon who carried out the work must be the mammary equivalent of Da Vinci because they were perfect

The Story:

Met Lindy while she was on tour and it was a meeting that I'll never forget. I had read a few reports about Lindy that made her seem too good to be true so I was a bit apprehensive about the meet. I was right to be suspicious about the reports...but the problem was they didn't do her justice. I don't want it to sound like I am regurgitating the same old cliches but she is far better looking in the flesh than in her photos. This, coupled with her having one of the best personalities of any lady I've met, working or otherwise, makes her something special.

I could go in to minute details about what we got up to but there is not enough space in this report. Suffice to say she accommodated all the usual BBBJ, cowgirl, reverse, doggy, missionary plus a few others that I'm not sure if they just happened or if she orchestrated them but they were fantastic. She could not do enough to please me and was attentive for our whole time together, not once did she even appear to check the time.

Since our encounter I've been on her website a number of times, looking at the photos and remembering our time together. She is a bit more expensive than most escorts but as they say, you get what you pay for and with Lindy I think I got far more than I deserved. The only problem is that she is considering making Glasgow a regular tour so I can see me selling house!

I can't recommend her highly enough.
