The Premises:

Nice flat with clean bathroom close to the Canary wharf station. On the bad side the place was noisy and the door of the room was often left open before and after the massage ,when i was still naked. The place gives the impression of cheap brothel.

The Lady:

Slim, good looking chinese lady, probably in her mid 30's. She said she is from Singapore. Difficult to say if she is the one from picture.

The Story:

The massage was carried on a bed rather than massage table. She was completely naked, some touching was allowed ,but she kept a distance. Her massage skills were not great, body to body experience was mediocre, she pushed her body so firm on me ,so it was rather feeling of her ribs rather than her lovely breasts, moreover the firm pressure desensibilise my skin . Happy ending was OK, but she placed herself between my legs, so she was out of reach. She insisted that my time has finished and I have to cum . OK I did that and went to the shower, on the way back I noticed that just 35 minutes were passed instead of one hour, and told her that this is not fair. For her defence I would say that she offered to carry on the massage or to apply something called hot stone massage, but I was already pissed off and decided to leave the room.
