### The Lady:

Nicole was dressed as requested in business dress and looked stunning, she had also as requested brought along her lap top bag to throw off my colleagues if they saw her on her way in ( a request usually dismissed by most)her underwear was the most stunning set of stocking and suspenders i ahve seen for some time phew ...

### The Story:

Nicole was very relaxed and offered me a massage as i was rather stressed from a long meeting which was fabulous. She took lots of time to get me in the mood for fun and took a very sensual road to climax. There was no usual rush to leave and we did run over ten mins or so which i was not expected to pay for refreshing change!

I have used the sister company to this in doncaster for in calls which am told will be coming soon to wakefield and if they are of the same standard guy's this is one to look out for.
