### The Premises:

In a residential area just outside Guildford, quiet road at the end of a rather downmarket estate, but perfectly safe. The house and room were clean and quiet. I was able to have a shower but no hot water.

### The Lady:

Nice body, petite, clean, bad teeth, basic English.

### The Story:

One of the worst punts I can remember for a long time. I only submit an FR if a punt is very good or very bad, or otherwise noteworthy.

Having read outstanding reports of other girls at this house I decided to give it a try. It was a waste of time, money, and effort. First off I understood on the phone that it was ?50 for half an hour, when I got there I was told it was ?60 (or ?100 for an hour). That could have been a misunderstanding due to their bad English and ?10 is not worth worrying about, but it set the tone.

She took her kit off to show a neat little body, got me on my front, a rather dull massage, then I turned over. she disinterestedly ran her hands over me then on with the rubber and a half hearted sucking until I was getting stiff, then asked me if I wanted doggy, so I said yes.

No touching, she pulled my fingers away from her pussy, wouldn't let me do RO and kept her tits out of my reach deliberately.

She made it difficult for me to enter properly by keeping her bum low, when I gently tried to get her to raise herself she shouted at me. At this stage I just wanted to shoot and get it over with.

When I'd finished she started giving me a lecture about 'pulling' her arms.

I told the lady in charge that if I came back it would not be to see the same girl, she told me that they change the girls every Monday, so be warned! The house may be OK but the girl is not.
