The Story:

This was truly a great punt. Caresse opened the door and greeted me with a full-on kiss. We settled on the bed and continued kissing - or more accurately had a sword fight with our tongues - for a good five minutes. At the same time her hands were at work on my trousers, underwear and all contained therein. I was in danger of becoming overheated and so withdrew from the tongue battle to pay attention to what proved to be the most receptive pussy I have encountered. It is supple, the clit is easily accessed and, when stimulated by finger or tongue, results in moans of genuine pleasure. Caresse eventually insisted that the roles be reversed and there followed the most sensational cock sucking and tongue flicking I have ever experienced. All this while her platinum blonde locks falling on one's thighs and belly add to the total sensation. Caresse, by the way, has a tongue of which any chameleon would be proud. It darts in and out and flicks as if catching an imaginary fly on the tip of one's cock. Needless to say, I shot my load deep into her mouth and she cooed with delight.
