The Premises:

Great. Superb access from the tube line. Clean and tidy, very discreet and professional. As they have only one girl available each day, you get a much more personal service than some other establishments such as your average incall escort service. Not only can you have a shower if you want but you can then wait in a comfortable bedroom with a television and magazines and be offered refreshments, truly a retreat. Plus I know they have been going for in excess of ten years they are obviously doing things right.

The Lady:

Gorgeous, petite brunette I'm guessing a size 8, with the most amazing face and eyes I can imagine. I could literally wax lyrical for ages. Young with a devilish grin and tons of experience, far more than her age suggests. Incredibly pretty, delectable dark hair, skin that's so soft. Firm in all the right places with a great arse. Smart. Believe me I could go on and on with glowing comments. If you like brunettes, or even if you don't, you are in for a treat.

The Story:

Details will remain mainly private other than to say that amongst other things, she set it up so it was painful when I got hard, then proceeded in toying with me to make me hard. I wanted her sensual affections but at the same time I didn't due the discomfort, she continued toying with me until I had to ask her to stop temporarily (what a head f*ck knowing I had so little control over getting aroused and the discomfort is caused especially with her playing with me!). She is great with her hands. Having seen her before a few times, she is just new to this establishment, I have never regretted a moment spent in her fine company and hope she gets the discerning and respectful clients that she deserves. The term punt seems so totally inappropriate/disrespectful here, but as she is new to this establishment I am posting a review. Would I recommend/return? Hell Yeah.
