The Story:

She quickly worked out exactly what I was looking for from our time and then delivered!! Extremely friendly in the room and came over not as a money digger which you come across but someone who genuinely enjoyed your company.

Went for a meal where she was entertaining and great company and then to the Comedy Store which was great.

Not good at writing these reports but I enjoyed every minute of our time together so thought you deserved my input!!

I would recommend a longer time with Amanda as you will not get to know her in an hour punt!!!
