### The Story:

Now this is going to be difficult for me. I have a lot of sympathy for working girls, in particular those working in a foreign country. I do have a penchant for Asian women and have, for the most part, had many respectful and sensual encounters (see my other reports). This was not one of them. Due to a change in financial circumstances I have not visited a working girl for some time. Having re-established and inflow of money into the bank account, and having worked hard for some months I thought it about time to treat myself with a nice hour in the company of an attractive young Asian woman. I had noticed that Hotsy has been on the other site for some time, and due to her positive feedback and services provided decided to pay her a visit.

It may be that due to money being tight that I am more sensitive to the quality of service being provided than I used to be. That being noted, it was one of the most disappointing visits to an Asian / Thai girl that I have ever had. One of the reasons that I like Asian girls is that they appear to be sensitive to your needs and as long as you establish the limits of the encounter from the start (eg. no FK, no OW) then all is well. Good 'service' is provided, you take the lead and the lady accomodates.

What did we do? Did we FK? Yes. Was there OW? Yes. Was there RO? Yes. However, it was all on her terms. Her positions. I gently tried to encourage her to let me take the lead (I am a very gentle, careful lover) but she was having none of it. Was there any 'chemistry'? I think not. This was not helped by her leaving the room on four occasions - to gargle her mouth, to wash her pussy, to answer her phone, to say goodbye to a friend. She did apologise each time she returned (so polite). To suggest that she was going through the motions is an understatement. At the end of the hour (actually it was 40 mins) I couldn't get out of the place fast enough. I felt cheated.
