The Premises:

Nice enough place. Clean and discrete. Bathroom was very small.
Flat shared with another girl.

The Lady:

As per the pictures but the usual depressing Photoshop has been used which seems to be the standard modus operandi of the London agencies nowadays. Totally pointless in this case as she is extremely pretty anyway. Looked great in the black holdups and heels.

The Story:

This will probably be my last punt with an Eastern European girl. Certainly an agency based one in any event. I kind of knew beforehand that this punt would be another average encounter, but once again I let Sophie's photos do the thinking for me.

Sophie's English was good enough but there was no real connection between us and I need that. She's friendly but all conversation was steered towards getting everything over as quick as possible. As an example when I asked what she liked doing in London she replied "sleeping". Fine whatever. So much for getting to know someone a bit.

The sex? I'd recommend her if you are after having functional sex with a great looking cutie. And I agree with the previous reviewer her oral is really good. So if that's your thing then go see her. I however won't be back.
