The Premises:

Her place was easy to find, in a nice and safe area. She shares an apartment with others and I basically only saw her room, which was decent enough as a sleeping/working room.

The Lady:

I made the appointment as she was young and rather new on the escort scene in London. Not an outstanding beauty I would say but with make-up she's ok. Her body is ok, not very slim and tight but not plump either, with some exercise she has potential. The pictures on the website give a reasonably accurate impression.

The Story:

I did not like the attitude of this girl. I got the impression she had just arrived from a similar job in her home country where expectations might not be very high. Her English was meagre but I've had many encounters which were very enjoyable despite that. She put little effort into both the talking and the deed, maybe a bit more in the latter than the first when I think about it. It's been some time since I saw her and things might have changed but when leaving I regretted going. This was the third lady I saw that day and normally I get increasingly excited on such a spree but not this time. Even with a lower rate it wouldn't have been worth it.
