The Premises:

Down quiet side road easy to find, have been here several times. Large room a bit cold but clean and tidy.

The Lady:

Amazing girl in her 30's large toys and in good shape. Easy to talk to and willing to go a little bit further than most other girls.

The Story:

Had asked for domination, said she wasn't very experienced but would give it a go. Was tied up with some rope (a bit rough and did leave a mark) but at least I was properly tied up. She suggested leaving me tied up in the small dom section for a prolonged time while she attended a regular something I wished she had followed through on without my opinion as that would have made this a stand out punt. However we didn't do that, instead she has me on my back gave me an excellent tit wank followed by oral while fucking me with a small vibrator. An excellent visit though wish she would have followed through on her threats.
