The Premises:

A hotel in central Birmingham. The room was fine and entering the building was safe and easy.

The Lady:

Moderately attractive 26 year old, 5"5 blonde, large enhanced breasts, probably size 12-14, tattoos on her back and legs. While it is the girl in the pictures (I can tell from the tattoos) she looks very little like the heavily airbrushed photos on the internet where she appears about a size 8. Very well spoken and polite both on the phone and in person. Claims to be a pornstar who lives mainly in LA. Seems to have also used the aliases Bella and Katie previously.

The Story:

Spoke on the phone and agreed to OWO and a facial, Harley was very polite and well spoken which I took as a good sign. Arrived on time and was greeted by Harley, who was just as polite in person. We got payment out of the way and she said she would take it to her "security" in an adjacent room. I didn't really think much of this at the time, although this was the first time I've ever experienced that I thought she was probably working with a friend. We then had a chat and got down to business, OWO me on my back. I tried touching her breasts (which she advertised as being natural) and she commented that I should be careful as they were sensitive. I can respect that and was gentle but found they were in fact enhanced! Tried kissing her but she pulled back and offered her cheek instead. Noticed the mirror across from the bed and so asked for her to kneel down on some cushions so i could watch the action at which she commented "i don't normally do this but today is your lucky day". So just as she is kneeling down I hear angry shouting coming from the other room "make sure he is respectful". Totally took me aback. Harley said "It's my security she is looking out for me, I should stay on the bed". I wasn't going to argue so we went back to the bed. She then asks if I want to come or to have sex first? I said I'd rather cum first and then we can do that for round two. At this point she stops and says "This is a one time deal". I didn't explicitly ask her on the phone if I could come more than once but she advertises herself as a high class pornstar so i was quite taken aback. I said I'd try sex and then do the facial. So on with the condom and we try doggy style. At this point, she starts to make comments to go "gentle" when really we couldn't be going any more gentle - she is clearly not enjoying this. So I stop and make out like I'm ready to cum. Instead of lying down she insists on sitting up so there is no way I could ever give her a facial and proceeds to jerk me off close to her face but then pulls away at the last minute so basically it just ends up on her hand. If this wasn't enough she then goes onto loudly proclaim "it's all over my face and in my hair, how did it get there" as though to fool me into not believing my own eyes! Just such

strange behaviour! Afterwards she was very polite and offered me a drink of water. I tried to be polite back but it was a struggle as I felt completely cheated. To her credit I did not check on the cum more than once policy (I will in future) but overall this was the worst experience i've had in several years. The fact that her female "security" (who was out of sight behind two sets of doors!) reacted to such an innocent request plus the overall poor service and lack of transparency is not what i expected from an "experienced pornstar" at this price. Since arriving home I've searched other review sites and discovered others have also had bad experiences. If you want to see this girl make sure you negotiate everything upfront and consider if the punt is really worthwhile before going for it.
