The Story:

A slightly odd session but enjoyable in a different way from how I expected.

Bella started with a back massage of a professional nature - I thought she was walking up and down my body over a towel at first but also felt her legs straddling me so much have been strong arms. I did like this not having had such a massage recently and having a stiff back although surprised how long it went on.

Hands then went to more intimate places and this then became O with.

Then some nice sex but don't think a change of position would have welcomed and she was also too sensitive to let me lick her protruberant nipples - though she did show me afterwards that getting a strong handful was fine.

Her details suggest A, OWO, FK available, none of which I got. But to be fair, some may be for 1 hour appts and I did lose hardness during sex, possibly from being a bit flummoxed over what was happening, so that may have suggested I wouldn't get it in her bum!
