### The Premises:

Ground floor flat in modern purpose built block.

### The Lady:

Slim mid 40s, well done enhanced breasts, inflated lips and not the best facial complexion in the world.

### The Story:

Started with a 'massage' which was not really, nice playful but not a massage. Then onto OWO During which I played with her with lots of lubrication. Had to stop going onto completion as I did not think I could go twice. Onto sex and lots more lubrication, so much that it was difficult to get enough sensation. Finished with oral but was more like HR. during which I was told off for having pubic hair. She also said I should be more toned, a bit of a blow as I have lost quite a bit of weight over the last few years. Although I would not visit again I think others would get on with her better.
