The Lady:

Kerry and Fifi are beautiful girls - even better than the pictures on the site suggest to be honest! Both arrived discretely dressed, it was an outcall so this was ideal as I didn't want to draw to much attention.

The Story:

Booking Kerry and Ffif was a belated birthday treat for me as I felt the day itself didn't have enough of a bang! The girls arrived well on time and quickly slipped into something more revealing than the discreet clothe they came in. Both speak great English, so chatting and describing what I wanted was no problem. Won't go into too much detail but this was the birthday I should have had and four hands are most certainly better than two ;) Not really into seeing two girls with each other, so I made sure all the attention was on me! I'm definitely going to have more than one birthday this year, and I'll invite these two wonderful girls!
