The Premises:

Met at my hotel just off A1 and very handy for Sasha. Arrangements very well organised with her.

The Lady:

Very bubbly lady who loves her body art! Lots of tasteful colourful tattoos and interesting to explore. Generous boobs, succulent lips, shaved down below and sexily turned out in stockings, heels etc. A real person with a lovely personality and I couldn't wait to play.

The Story:

We started with bubbly and grapes and found lots of naughty places to play with them. She is great fun and has apparently only started working recently to keep pace with her sexy needs. She is a very naughty lady, very obviously loves to kiss and knows how to give a very horny blow job. I spent a very pleasant time licking out her very wet pussy before some excellent shagging.

She is a great lady and I most certainly will be seeing her again.
