The Story:

Feeling horny and wanted some action with the snow imminent. Started off with some general conversation and got the paperwork out the way. She was naked under her dressing gown very ample breasts. Body to body massage and some kissing on the bed followed by her going down on me. So far it was great and I was just about to come when she suddenly stopped. She explained that she felt it was too soon for me so she stopped.. I tend to believe she has controlling issues. Anyway whatever the reason ,due to my diabetes which I had previously explained (i.e the blow job), I lost it and although she tried to restart me, that was it for then. Unfortunately it's always your fault when this happens although I tend to feel a less selfish attitude on her part would have ended in a more satisfactory result. I didn't feel too good a result of this encounter.
