The Premises:

Spotlessly clean flat in the Hub, Milton Keynes. Lots of free parking in Sainsburys across the street (and a good opportunity to buy Helen her favourite Dairy Milk chocolate). Rachel, Helens fantastic and freindly maid, gives great directions and does her level best to make you feel special and is happy to chat and put you at your ease. Bathroom is equally spotless and has a fantastic shower with toiletries provided so you can be as fresh as a daisy all over. The bedroom can be a little cramped for what Helen's imagination and skill can come up with but when she's in the room everything else melts away regardless

The Lady:

Helen is my Goddess, my Aphrodite, my succubus. It may be a cliché but Helen's photo's do not do her justice, she has an unsurpassed natural beauty, not spoiled by too much makeup. 5ft 8 without her killer heels, slender size 10 with awesome natural breasts. But it's her eyes that make me quiver, intelligent and piercing with a glint when she smiles and giggles, which is most of the time when we are together. I could go on forever with superlatives but I would say, see for yourself, I promise you won't regret it and will wonder why you left it so long too meet such a beauty

The Story:

I have been visiting Mistress for some 6 months and over this time she has introduced me to pleasures and sensations hitherto unknown to me, over this time I have become her Pet, and each and every time we meet my heart pounds with excitement as she never fails to have some new sensation or torture to try out for me, some new toy she wants to experiment with or, when I have transgressed, new punishment for me to endure.

As Mistress Helen's Pet I have been allowed certain privileges which shall remain between us alone, but I never cease to be amazed by her sublime mix of tenderness and caring whilst being totally dominating and exacting. Mistresses toy collection is extensive including several different types of whips, floggers, canes and crops all of which gives it's own unique sensations and pain in her skillful hands. Electrics, including her new violet wand are a consistant source of amusement for Mistress which can as easily tickle as to torture, lots of CBT devices and restraints everything you could possibly imagine and wish for and much more besides. And of course she has an extensive wardrobe of both kinky (PVC, leather, latex and her favourite, corsets to die for) and more vanilla clothing to suit any fantasy you may have.

Mistress always takes time before, during and after to find out what you are thinking and likes to have as much feedback as possible to make your time together exciting and memorable, and even to ensure each visit is equally as memorable. I have honestly lost count of the number of times I have visited Mistress Helen but each visit has been unique and the more we learn and grow comfortable with each others needs and desires the better our time together gets. Nothing turns me on more than the sound of her laughter and giggles as she administers some new torment on to me, making my desire to take more and more so intense I sometimes drift off in to my own utopia. For those of you not in to domination or are only curious I would urge you to visit Helen, as she offers the best of both worlds, World class GFE with lots of affection and tenderness, coupled with a deliciously wicked domme persona, the ultimate cocktail of both worlds. My only word of caution would be that Helen is not a lady that likes to be dominated herself. Slapping, forcing, pulling and throwing her around will only get you ejected instantly and barred for ever, so if that's your 'thing' Helen is not the lady for you. Treat her with respect and courtesy then you will have the time of your life and will be craving more and more of her company. Simply the best!!!!
