The Premises:

Layla had a medium-sized apartment in a very safe area, It was scrupulously clean.

The Lady:

Layla was wearing a blue cocktail dress, Aubade lingerie, heels and possesses the curves required to bring the outfit to life. I think that her video gives a better impression of her face and personality that her pictures do.

The Story:

I suppose that the theme of our encounter was "tease". Layla has gently teasing eyes and we spent much of our time together teasing each other, mentally and physically.

I opened the champagne and we got to know each other before I was permitted to commence exploring to try to discover some of her special places. I then took a quick shower, emerging to find a still fully clothed Layla lounging, invitingly, on her bed. We redressed the clothing imbalance before she allowed me to gently tease her in ways that she seemed to find enjoyable. She already knew that I am sufficiently old-fashioned to subscribe to the principle of "ladies first" and allowed me to put that principle into practice.

Once Layla had recovered her equanimity, she informed me that she would be a most unhappy Angel if not allowed to tease me in return, giving me the option as to how to finish. I left the decision to her and enjoyed the most coquettish of oral experiences.

Once I was teased to completion there was plenty of time to kiss, cuddle, caress and to swap anecdotes in the vein which would normally fall into the province of a term relationship.

I have no doubts from our discussions that Layla can display a much raunchier side to her character where necessary but she so enjoys escorting as to judge perfectly what I was after and to deliver an experience of love-making enveloped in a bubble of sheer happiness.

Just a classy lady!
