The Premises:

Her flat was easy to find (I was familiar with the area). Discreet at that time of day.
Clean but with a heavy smell of cigarette smoke and no fresh air.

The Lady:

She looked older than her quoted age of 26 more 36. Her picture on the website has definitely photo-shopped!
She had a lovely pair of tits and a nice body.

The Story:

I went there for a massage and extra's.

When I got to Apple's door she was dressed in a see-thru red net nighty, with only knickers on. I knew she didn't look like the picture on the website but she had a nice body and cute tits. Plus she had a very cheeky smile. The smile faded as time went on.

When I got there we discussed what I wanted and handed the envelope over. I was offered a nuru massage as my last appoint was double booked.

I wanted to cuddle and stroke for a bit before taking my clothes off and Apple was very happy to comply. But there was also a hint of clock watching and her wanting to get me on the bed.

I asked her what extra's she carried out but she said we can discuss that later. A little off putting.

Once on the bed Apple started massaging me with baby oil - very cheep.

She said she does extra's but she said no to what I wanted so I suck with a massage. After about 15 mins Apple went to set up hot stones to which I already said no to. Time wasting in my mind.

I turned around and Apple already looked liked she wanted me out of there constantly checking her watch.

Apple agreed to mutual touching on her upper torso only but she didn't like me touching her breast and took my hands away a number of times.

At this point I was numb and wanted to leave. She tired to give me a hand job - but she failed.

Not sure if I actually got a proper nuru massage.

Overall, the experience was disappointing, Apple lost interest quickly and constant clock watched. Even the hand job didn't come thru.
