The Premises:

The Lady:

Gorgeous ebony princess. Plump firm rear, petit frame and enhanced breasts. Overall, she is in her mid to late twenties with a body to die for if you don't mind enhanced boobs. I'm now a convert! Long black silky hair, big eyes with cute long lashes that she knows how to work to wrap you around her little finger!

The Story:

This is my first review following one 'not so great' and one 'awful' experience. I wanted to write a review for other lurking lesbians like myself. I hope it encourages other female punters to review some of the girls from our perspective! If you do, it would be useful if you chose a name that marks you out as a female reviewer to help others.

Booking

First, booking was sooo easy by phone. The website was a little unfriendly so call instead.

I gave a last minute request for Lexi to arrive conservatively dressed which she happily obliged. (My previous 'awful' experience included the girl arriving at a plush 5* boutique hotel looking like a "man-hunting" street walker which put me right me off! Nothing happened that night...)

However, Lexi arrived looking like an elegant extra from Breakfast at Tiffany's. Wow. My two hour blissful fantasy began.

Getting Started

I had pre ordered Champaign and light food and we sat down to drink a glass of champaign before hitting the showers together. There was no awkwardness as we shared my spa treatments and lathered each other up in the shower. I've never had a shag mate but I think this is what it would be like. A cross between gfe and a one night stand with someone you know well.

Getting down

My room was cold so Lexi jumped straight into bed and cheekily said "right, where do you want me!". That was it, I lept on her and had a blissful time. I won't go into details but Lexi was an expert 'femme' shag. As a soft butch, she was ideal for me and I did everything I wanted to (including using a new strap on I bought for the occasion three times!) She bought some rather scary looking large dildos with her but I prefer to be the giver and not the receiver in that dept! I suppose it demonstrates her versatility if you like that kinda thing.

So, is she really queer? I thought about this a lot and I'm gonna say, yes. She is not lesbian but definitely bi and NOT a fake 'gay for pay' type that makes me LOL! I bought a load of lube (because of a previous 'not so great' encounter) and we didn't need it because we were both dripping wet throughout. There was no clock watching and she told me off for keeping track of time! We laid breathlessly in each other's arms until past her time to leave.

My only niggle was that I couldn't extend my time using my card. Who walks around with cash these days? Shucks.

Recommendation

I spent two hours gorging on her and couldn't stop until I'd licked, sucked and fucked everything I wanted to. It left no time for her to show the breadth of her skills which suited me! So, I don't know what her other skills are like. Judging by the toys I'd wager that she is no stranger to giving as well as she gets! I'm gonna see her again, she is very special.
