### The Premises:

Spacious flat near Shepperd's Bush station. Easy to find in basement but has no door bell so you need to knock.

### The Lady:

Really beautiful, young Rumanian girl just as on the photos. Slim but very busty, smooth skin, full lips, big eyes, firm bum. You'd think the pictures are photoshopped but they are real.

### The Story:

The visit started well enough with her making a surprised and very nice remark about my physique when she opened the door. Thank you, Nadia! I was immediately taken by her appearance.

Certainly one of the best looking girls I have been with this year. She speaks some English but not enough to have a more interesting conversation. Still, we chatted some and then I went into the bathroom to shower. I asked her to wear a black dress and when I got back, she had changed and looked very sexy with high heels. I was looking forward to an hour of bliss.

What I then got was... well... irritating. Every two minutes she would stop doing what she was doing and ask whether it was ok or whether she should do something else. No effect that I assured her she was doing fine and should not worry. She just interrupted all the time which was really annoying. Kissing was superficial and felt more like pecking a bird than the snuggling one would love to do with her full lips. Oral was average once she had asked her questions about how to do it and whether I wanted OWO or covered she did it for two or three minutes. Then she switched back to manual and then stopped and asked whether I liked that. I said oral would be nice, so she asked again how, did some sucking and back to manual. Frustrating.

I then decided it was time to explore those marvellous breasts, but "oh, sorry, no sucking, they are sensitive". Ok, so I just stroked them very gently but she said touching the nipples was uncomfortable too. A real pity as they are really, really nice to look at. Interestingly she was ok for me to have a tit-fuck and so I did that - which felt great... for two minutes, then she interrupted again.

Try some kissing again? I got pecked. Since she clearly was keeping physical interaction (safe for the brief tit-fuck) to a minimum I then thought I might as well ask her to play with herself. Now that was better as a) she did not ask me how to do it, b) did not stop after two minutes and c) even

started getting into the act a bit more.

I then had hopes for sex and when I first penetrated her, she kept on rubbing her clit which was sexy but then suddenly she made an abrupt full stop and asked if all was ok. I said yes, but that was pretty much the end of it. No more clit rubbing after that and I hurried to come before she'd go into a stasis.

All in all I spent 45min with her and was lucky I booked her through a different agency for 150/hour, which still felt much. Don't get me wrong: If you are a visual guy and don't care much about action, you might just enjoy looking at her naked, ask her to masturbate in front of you and be happy with that. But if you want sex - real sex and not a series of short enactments interrupted by constant queries - then that's definitely a no. Such a pity, really. She has all the assets and knows how to use none of them.
