The Lady:

IT'S A SCAM. The girl that came was not the one on the pictures. She came with a driver who took the money and left. After 1 minute she pretended she forgot the phone and that she had to go to take it from the driver. I understood it could be a scam so I offered to go downstairs with her. She went out, then went to the car that was waiting for her and left. I didn't enter into any discussion with the driver as I didn't know how dangerous he could be. But beware of FRESH ESCORTS. They are THIEVES and I have already reported them to the police.
