The Premises:

A cosy flat above street shops. Alexa met me and i followed her to the flat very safe and easy. The tube is very close.

The Lady:

She is a slight beautiful young woman with large mamary glands. I would say 22. Her English is limited but not a hinderance imho.

The Story:

I followed her tight arse wrapped in blue jeans up the stairs. Alexa is a beautiful brunette, slight build with enormous tits. Her body is very fit and looking down on her breasts as my cock slid into her tight cunt had me gasping. The ride was great and she responds with a smile, stroking and pelvic wriggling. I rode her for as long as possible savouring the feeling of my balls slapping into her arse. I shot the condom full of sperm and dismounted slowly. I was well fucked. Alexa's body glistened with post coital sweat. She tidied me up and we rested. She is attentive and continued to lick my nipples and massage my, now empty, balls. Her oral skills are with condom but i was soon stirring and the second orgasm was acieved through a decent blow job with attention to the scrotum and then a vigourous cowboy session. I thrust up into her tight hole and her tits moved like huge waves on a rolling sea. This type of vanilla sex hit the spot and in a friendly atmosphere with the offer of drinks and a shower is a bargain. I will return for another ride soon.
