The Story:

Melly is not your typical punt. She only does outcall, only does blowjobs and keeps her clothes on. But it was an amazing blowjob. She really sucks strongly and she told me afterwards that it's something she loves doing. As soon as she's finished, it's a quick clean-up and she's gone. Another good thing about Melly is that she can arrange a visit at short notice. So if you're in south London and you suddenly get the urge, text Melly and she'll soon be round. You won't be disappointed. I've seen her a few times and always look forward to the next one.
