The Lady:

Everyone with any sense knows what Adele looks like. I actually got the bonus of meeting her as she came back from a spot of shopping in civvie clothes which, for my first live sight of her suited me down to the ground. I loved the 'real' Adele, not because I don't also like the polished posed pics - that's what got so many of us to put her top of our wishlists plus the uniformly brilliant reviews.

In other words, after a girly wave from a distance as we spoke on the phone got me running towards her, I was in heaven.

The Story:

There are so many great and well deserved reports on Adele but now she has gone indie, I do hope people in the deprived parts of the country latch on to the sex goddess that they may have coming to light up their little corner of the world - don't let her leave without letting her work her magic on you.

Totally ease between us from the first moment. Even though I have seen over a thousand women, I was extra excited about the prospect of seeing Adele and I was a touch apprehensive too but that was gone in a smile.

This lady makes no bones about loving sex and of course it's a regular occurrence for her but she still comes across as if you were the first man she had seen for some months, is ready to see what you want to do and then to enjoy herself to the max too.

It is an intoxicating recipe and Adele has the perfect character and a gorgeous body to achieve what she wants to achieve in the men she sees.

We did anything that didn't cost extra money (though I gave the gorgeous bum a good thinking about) and that proved not to be at all limiting.

The chat, the banter and the mutual appreciation never stopped and the enjoyment was so good, time didn't fly by too fast because I was getting so much to feast on.

I have seen so many brilliant ladies over the many years but Adele has shot straight to the top and I simply adore her.
