The Premises:

Tall block of flats, which didn't look promising from the outside, so I had a stiff drink and then marched up to it and found that in fact it was really nice. Sara's flat is amazing - her bedroom has an incredible view. Very nice bathroom with quite a range of shower products, as well as mouthwash and deodorant, fluffy towels. How often do you find all of those on-hand?

Easy access from the tube station.

The Lady:

Italian girl, just arrived and with a fresh set of photos. Maybe she was a bit more tanned, a light sandy colour. She has quite a sharp nose and chilly blue eyes. The lipstick was a thin line of bright purple on a small mouth. The outfit, a black negligé-like thing. Overall, the pics are a reliable guide. She can smile, btw.

The Story:

I looked her up on several websites before making my choice, one of which said she offered a GFE with the usual trimmings, even implying kinky stuff might not be out of the question. She's new in town and in the future will probably make a good dinner date companion. I'm not new at this and I knew it was a gamble - you develop instincts - and this incall fell between two stools. I can understand an escort not wanting to receive a-levels or do stuff without a condom, but this wasn't a proper GFE because no kissing. Did she detect a trace of booze on my breath? Possible, but I doubt it. She kept turning her head away. Right then I could tell this would be a mechanical punt and I'd be leaving early, and so it was - 30-35 mins later I was gone. Made the best of it and it could have been worse - and has been.

Perhaps she'd be more affectionate if I became a steady, who knows?

Try half an hour, if only to see the view from her bedroom. Wow!
