### The Premises:

### The Lady:

Mixed raced girl looked around 27 to 30ish, about a size 12 to 14 i would say.

### The Story:

Had a shock after with this girl, wished i never booked

Booked Monica to come and visit me but must say was not that great, her pictures look a lot better then in real life, she was quite friendly but the price i had paid should have been £130 but ended up paying an extra £20 because she charged for for kissing. Not a bad body but quite a bit more plumper then in the flesh very average anyway these are all the good things!

I found out after talking to another bloke punter that i know that this girl was rumoured to have just got out of prison after serving 3 years in jail for setting up robbery's to rob escorts and punters and there was an armed gang involved. I was shocked by this and was told to look at a newspaper article to see if this was the same girl. The escort that i saw was indeed the same girl working at naughty northern escorts, absolutely shocked that they would take on someone like this especially knowing what she has done. Now That has left me totally paranoid now. I have not asked the agency about this because they have my details but after speaking to a fellow punter he told me quite a few people are aware of this and that the agency has been informed. My punter mate told me to let people know on here so there aware of the dangers of booking her. Anyone wishing to get this confirmed the articles are there but if you book Monica you will see the picture is the same girl working here.

This is 100% the same girl i saw.
