The Story:

After reading a few good reviews on this WG I decided to give her a try as she seemed like my type. also this is my first time using the agency and also read a lot of good reviews

I made the booking early during the day at 11am (which was straight forward) so that there was more than enough time to get back to me if there were any delays on the part of the agency and all seemed to be going on well until I arrived at the hotel. I could hear music coming from the room and when i pressed the bell I heard footsteps coming to the door. I believed she looked through the keyhole and did not open the door. I am not George Clooney good looking but i can hold my own and I get comments from both female and male on how well dressed and good looking I am so I couldn't really figure out why she didn't open the door.

I tried about 4 more times to be sure that she wasn't just asleep or in the bathroom and still nothing. 5 mins after I left I got a text from the agency to say my appointment had be cancelled. I don't want to jump to any conclusions but if you are of colour like I am, I suggest looking looking at other girls and not Libby as the only thing she saw was my colour and decided not to open the door
