### The Premises:

My hotel, so Ok.

### The Lady:

Very sexy. She dressed in exactly what I requested. Killer heels and a short dress. Slim and toned. Nice skin. Great personality too! God knows how she got past reception dressed like that!

### The Story:

No real introductions here. We were sitting on bed kissing (little bit of tongue), our hands wandering. Our clothes came off and the real fun started. I had her give me a massage which was great, especially when she slipped a finger up my ass! She had me so hard. It was then on my back for lots more massage and gently kissing all over (I declined oral). I forget how I she made my cum for the first round, but it was fantastic. After a quick clean up, we were kissing again, hard again, then here riding me cowgirl. Shes nice and tight. I loved the sight of here riding me - so i came deep inside here. Overall a nice girl and a great session.
