The Premises:

Easy parking; discreet address near city centre; spotless house; perfect temperature in room!

The Lady:

tall at 5.7;size 10;35;matches precisely the photos. Sammi has deep black hair, lovely shoulders and ivory skin - very smooth to the touch. She has a very firm and strong body, although apparently she does not train. Long legs and perfectly round bottom and breasts. She knows her body very well, almost like a dancer, and knows how to move naturally around you.

The Story:

Sammi has a way to make you feel immediately at ease. From the moment she enters the room she looks at you with friendly, understanding eyes and starts to talk to you in a mixture of English and French, as if you knew her native language. Strangely enough, it lends a familiar note to the whole encounter. she has a soft and assured touch when it comes to feeling your body, which invites the same response. Make no mistake, though: you can see in her eyes she has a lot of hinterland. What starts gently can turn seriously physical in an instant. That day I was looking for a gentle, not straight-to-the-point session, however. And this was precisely what I got. A long time was spent exploring her body (watch that neck!)before she invited me in her mouth while asking me to caress her back. Very sensual OW, with a feather touch on my smooth balls at the same time. Play it again, Sammi! After such a polite invitation Monsieur could not refuse to give her more so we continued with a doggy, me standing. She touched herself at the same time, so she had lots of cum. She is quite tight! I could not come in her that day though, so she suggested me to cum on her breasts while she fingered herself. With one hand firmly in control and the other buried in her thick hair, the session drew to an end in no time.

45 minutes was not nearly enough. taking your time should be very rewarding with Sammi. I will certainly ask for a one-hour appointment next time I feel ready for a long haul. Unless I think too much of these sparkling eyes and familiar smile and decide for a downright energetic session of 30 minutes. Just to see whether my very fit body can make it to the end in one piece.
