The Story:

It is some time since I have seen Terri as I have moved away and have to make a 660 mile round trip but it is always worthwhile. Terri looked lovely having just returned from an extended visit to her family she was a little more tanned than usual she was wearing black bra, thong, stockings and suspenders under a black negligee. I went for a freshen up in the bathroom and handed over my gift and in to the bedroom where Terri suggested a relaxing massage this then proceeded on to fondling each other, oral both ways and sex in a number of positions she is very tight down there even for my little soldier and as pace speeded up there were cries of satisfaction as we both came hard together. After a rest we prepared go out for lunch, Terri dressed in a black maxi dress with high neck and no flesh on show but extremely tight leaving little to the imagination. We drove to a country pub where we sat by the fire having lunch and chatting, she was soon telling what she was going to do to me later, total domination, very exciting, as we drove back she massaged my inner thigh and said that I was to have 50 cuts of the whip to start with ! Once back at the flat Terri instructed we to strip by this time she had changed in to her black basque and stockings and was carrying her equestrian whip she secured my wrists to the bed and instructed me to get on my knees with my bottom in the air, soon I was to hear the swish of the whip coming down hard on my buttocks 28 - 29 I had to call the safe word to stop as I could take no more, she said she would allow this but I would have to have 6 of the best from her new cane this really hurt. She massaged my wounds with oil gradually sliding her gloved hand in to my arse this was followed by a strapon which as she speeded up she wanked me and I came. After turning me over she promised some champagne still blindfolded she told me to open my mouth she then pissed in my mouth with precision - it tasted sweet as I swallowed it. My blindfold was taken off and I was massaged with oil, gloves on around my cock and balls I was given a handjob she stopped me coming 3/4 times she turns a handjob in to a work of art but in the end she gave me permission to come - that was domination. What a memorable day the only question is how am I going to drive 330 miles and

when can I see this wonderful lady again ?
