The Premises:

Small but tidy flat in a discreet block of flats set back from the road. Shower was small but working and the bedroom had a double bed & small sofa.

The Lady:

She's had a bad rap on here before in terms of physical description but I thought she was lovely. Not as slim and toned as some Thai ladies she is never the less still very petite with a nice bum and tits. I wouldn't really describe her as curvy or voluptuous but she does have a nice figure. She was dressed in a skimpy red number, thong and heels. Facially I found her attractive, a typical soft round Thai face. Though not as pretty as her pictures I was still happy when first seeing her.

The Story:

Mercedes greeted me in with a polite smile and sorted me a beer. Things were a little strained between us, probably a mixture of nervous excitement and the spliff I'd just smoked but I was too keen to get down to action to worry about the quality of the social interaction. She was there to get my dick off and that's all I cared about.

I showered, she patted me dry and we got onto the bed. I had a sip of beer before pulling her to me and started full-on snogging before she asked me to lay on the bed. I had different plans and asked her if she could get to her knees instead and I stood at the side of the bed. A slight misunderstanding meant she knelt on the edge of the bed instead of in the floor - but hey, I was gonna get my dick sucked any how so let her take my rock hard cock deep into her slutty little mouth and do what she does best. Deepthroating wasn't a problem, she actually sensed when I wanted to go deeper and harder and responded to it. I untied her hair, grabbed big handfuls of it and started to rhythmically fuck her mouth. "I lick your ass?" she asked. Sure, but not before I got on her to kneel on the floor so I could watch her sucking my dick in the full length mirror.

Eventually I got onto the bed and lifted up my hips, her sliding a cushion under my lower back before she got her tongue around my shithole. The feeling was sensational - her licking and slurping like no tomorrow, while the nerve endings round my anus lit up with pleasure. I got her to stop occasionally to give my dick some attention.

I next asked her to lie on her back with her head hanging over the edge of the bed which she did obidiently but on doing so found her head was too high for me to easily thrust my cock into her gob. I suggested changing to the lower sofa which she did obligingly, lay on her back with head hanging

mouth-height at my cock and took it in eagerly. I played with her tits and pussy whilst fucking her mouth. After a little of this we French kissed some more, the taste of my asshole still on her lips. I suggested a 69. I lay back on the bed, she positioned her pussy above my face, started back on my dick while I ate her out. By this time I could feel myself start to cum and had to push her head away from my dick occasionally for fear of spunking too soon.

I rubbered up, she got on her back, I got her legs over my shoulders and I started to fuck her pussy, her moaning and groaning as I grabbed her head and pounded her tight little cunt. At this point I came, unable to hold out any more. She gave me a little massage before I had to dash for my train. The session was hot, horny and everything she did made my dick feel sensational. I'd highly recommend.
