The Story:

Upon entering the room I had a shower and then select began kneading my back. I actually have bruises from her heavy handedness. Then I asked her to do the front. This woman does not know how to perform a massage I am in total agony everything is sore. After that I asked her to perform oral and she was lacking in that department. This lasted for 2 mins and she wanted to ride me... with all the pain from the horrible massage I got flaccid. She tried to arouse me again but she kept yawning which was even more of a put off.... no apologies and no happy ending....
