The Story:

No OWO - how did I miss that? I'm usually so careful. Never mind it can be carried off in the right hands, unfortunately these are not the right hands. Her hand job was pretty dire, no real understanding of what is required. Kissing was not good either. She seemed to be in a hurry to get it over with - presumably so she could continue with her intermittent telephone conversation. Really this sort of behaviour is almost like stealing, after all I have paid for her time and she should give me her undivided attention.

Nice girl - I hate myself for giving her a bad review.

In fairness I'm 70 years old and the biological processes are slowing down a bit. If I'd met her when I was 18 no doubt I would appreciate the rush to orgasm in the full knowledge there was another one coming in a few minutes. But she holds herself out to be a professional and needs to be more reactive to her customers needs.
